"Make Her Pay." Greets British Premier After Conference—Germany Protests to League

(By United Press)

Paris, Mar. 7.—The French superior war council went into session today with President Millerand himself presiding. It was believed the council itself concerned itself with preparations for advancement into Germany as prepared by the allies.

London, Mar. 7.—Marshal Foch tonight ordered the allied troops to move into new German territory tomorrow. This was announced officially. It was stated there might be one day delay before the allied armies got under way.

London, Mar. 7.—The German reparation proposals are not acceptable and do not justify the penalties to be inflicted by the allies. It was officially announced today following a final conference at 4:30 p. m. today. The penalties laid down when Germany refused to accept the demands of the allies, include occupation of Dusseldorf, Duisburg and Ruhr in the Ruhr valley, seizure of custom houses, levying of taxes on German exports and establishment of a custom line along the Rhine.

Von Simons got into communication immediately with the German government following the conference. Lloyd George arrived at the St. James hotel amid cheers by large crowds of people.

"Make her pay!" the crowd yelled. Germany protested to the league of nations against the menace of allied invasion. The protest was filed with the league council.

Von Simons of Germany gave notice of his intentions of appealing to the league when he, with allied representatives, met today.

"Germany is not a member of the

Republic of Panama Will Continue Preparations to Compel Evacuation by Costa Ricans

ANSWER TO HUGHES PROMISED

(By United Press)

Balboa, Panama, Mar. 7.—The republic of Panama will accept under protest the mediation of the United States in the dispute with Costa Rica, President Porras declared today.

Porras made the statement following receipt of an ultimatum. He declared Panama will continue in preparation for compelling Costa Rica to evacuate Almirante if those forces are not withdrawn.

The president said he will reply to Hughes' note submitting the communication to the national assembly tomorrow, and be guided by its decision.

A message from Bocas Del Toro said the Costa Ricans were not attempting to take their city but were pressing on Almirante. Americans have interests in that region. The Costa Rican forces were estimated at 1700 men.

league, but she has signed the pact. I therefore appeal to the league in behalf of the German government against the demands by which we are menaced," he said.

At the time in anticipation of rupture the German delegation made preparations to leave London tomorrow. The forenoon session closed after Von Simons had presented the German proposals and Lloyd George gave his decision on them.

Dr. Walter Simons, head of the German delegation, told the allies the Germans rejected the proposals formulated at Paris and had decided to revert to the idea of a provisional arrangements they had prepared. This would call for the payment of fixed annuities for the first five years, and would give the equivalent of the 12 per cent tax on German exports.

New German proposals, which, it was said in French quarters, were unacceptable, were submitted to the supreme allied council today before the reparations conference opened.

After the recess, M. Laurent, French ambassador to Berlin, who was present at the sitting, said there was little doubt that there would be a rupture of the negotiations at the late sitting of the conference.

At this sitting, it was announced Mr. Lloyd George, British prime minister, would reply to Dr. Walter Simons, German foreign minister, who presented new German proposals at the first session today. These proposals, which were said in French quarters to be unacceptable to the allies, were of a provisional nature, calling for payment of fixed annuities for the first five years, conditioned on the plebiscite in Upper Silesia being decided in favor of Germany and on the removal of all commercial restrictions. The Germans said they would have to consult their government and to ask a weeks' adjournment for the purpose if they were required to make proposals covering the total reparations.

Premier Briand, of France, on leaving the conference, indicated the reply to Mr. Lloyd George would be very firm and positive in tone.

"The allies are perfectly agreed as to what should be said," he added.

Mr. Briand and Mr. Lloyd George took luncheon together during the recess.

In presenting his proposals at the conference's first session, the German foreign minister, although declining to discuss the question of responsibility for the war, which he said only history could decide, expressed agreement with Mr. Lloyd George that the party which had been condemned by the peace treaty must pay.

The Germans, he pointed out, had made proposals to restore the devastated area of France, but these had been received with doubt.

Dr. Simons deplored the allied disposition to ignore the payments already made by the Germans which they contend should be applied to the reparations account and the allied persistence in the view that Germany was acting in bad faith.

He discussed at length the subject of taxation in Germany and in the allied countries, seeking to disprove the statement made by the British premier in his speech of last week that the taxes of the allies were lower than those of the Germans.

Dr. Simons said taxes should be calculated on a per capita basis, taking into account the income per capita. He quoted statistics to prove that on the basis of such calculations the Germans were more heavily taxed than the English.

WILL MOVE TO PETROGRAD

Bolshevik Forces to Attempt Taking it From Revolutionists

London, Mar. 7.—Bolshevik troops are reported concentrating in Moscow today for a dash on Petrograd, which is now in the hands of the revolutionists. A telegram received announcing the fall of the Soviet government, was discredited by the usual Moscow wireless, indicating that Lenin and other leaders were still in control.

Twenty-five Bolshevik commissaries were abandoned by troops in the vicinity of Petrograd, and have fled into Esthonia. The report said several arrests have been made. Foreign office advices said that the garrison at the most strategic centers had gone over to the White forces.

EXEMPTIONS MUST BE FILED WITH AUDITOR

Recorder Had in Mind Fact Auditor Had no Notary When He Made Announcement

EXEMPTION LIMIT IS \$1,000

Mortgage exemptions will be filed in the county auditor's office as usual this year, as provided by law, despite the announcement of the county recorder, Howard Campbell, that under an arrangement with the auditor, exemptions might be filed in the recorder's office.

It is explained that Recorder Campbell had in mind, when he made the announcement, the fact that there was no notary public in the auditor's office, to swear to mortgage exemptions, and that the recorder's office had a notary who could provide taxpayers with this service.

Though taxpayers may patronize the notary in the recorder's office, it will be necessary for them to file their exemptions in the auditor's office. The exemption under the law amounts to fifty percent of the mortgage up to a limit of \$1,000. That means a \$2,000 mortgage is the maximum on which fifty percent exemption is allowed. War veterans and their widows are entitled to the exemption without making any affidavit.

NATIVE OF INDIA SPEAKS HERE SUNDAY

Alpheus J. Sampson Explains Educational and Religious Progress of His Country

SPEAKS AT ST. PAUL'S CHURCH

Alpheus J. Sampson, a native of India, lectured last night at the St. Paul's M. E. church, his subject being, "India in the Making." Mr. Sampson illustrated his lecture with lantern slides and he gave some very interesting facts concerning the life in India.

Mr. Sampson was born in Calcutta and was educated in the schools in that city, receiving his college education in this country. His father was a native minister of the Methodist faith and his grandfather was a priest of the Hindu faith, having been converted. The lecture last night dwelt with the social, educational and religious life of India. He maintains that there is no other country in the Oriental world that affords a greater interest and deeper study for the western mind than India.

The sermon last night explained the educational and religious progress that the country had made: the transforming power of modern civilization and Christianity; the influence of caste and education, illustrated with instances, observations and experiences.

Mr. Sampson delivered an address yesterday morning in Milroy, speaking on "Sunrise on the Indus."

CITY COURT CASE BEING HEARD TODAY

Jesse Winkler and Leonard Alsop, Convicted by Jury of Women, Now in Circuit Court

ECHO OF GAMBLING CLEAN-UP

Accused of Renting Room Where Arrest Were Made for Gaming—Hokey to Stand Trial

Circuit court today was taken up with a case in which Jesse Winkler and Leonard Alsop were defendants, charged with renting a building for gaming purposes, in which an echo of the large number of arrests in December was heard, when a large number of defendants were fined for alleged gambling at a soft drink parlor at the corner of Cerre Gordon and Second streets.

These two defendants were among the last ones to be arraigned and pleaded not guilty in December in the city court before the late Mayor Irvin. A jury composed of women heard the case and returned a verdict of guilty, imposing a ten dollar fine on each defendant.

The two defendants then appealed their case to the circuit court, which was being heard today before a jury of men. It required 19 talesmen to secure a jury this morning.

It will be recalled that a general cleanup was made in December when Fred C. Hokey confessed to losing money by gambling at the soft drink parlor and he implicated 30 other people, most of whom were fined. Hokey also implicated the owner of another soft drink parlor and several people arrested were fined for alleged gambling at this place.

The owner of the last named place was fined upon a plea of guilty for renting a building for gaming purposes.

This morning a little difficulty was experienced in securing a jury as the case had been widely discussed. The case got started about ten o'clock and was expected to reach the jury this afternoon.

Hokey, the man who started things by confessing, is also scheduled to go on trial this week, on a charge of embezzlement, it being alleged that he took money from a cash drawer for the purpose of gambling.

The grand jury will convene again Wednesday, according to Prosecutor Stevens at which time it is expected they will complete their investigations, and make a report on indictments.

The jury hearing the case today was composed of the following men: Harry Clifford, Maurice Kirk, William Dagler, Thomas Alexander, Charles Fisher, Sylvia Hodge, Oscar Alexander, Rex Innis, Charley Newhouses, Edgar Noble, A. J. Farthing, George Murphy.

ARRAIGNMENT BEGUN TODAY

More Than 200 Defendants in Federal Court to Enter Pleas

Indianapolis, Ind., Mar. 7.—With more than 200 defendants present to enter pleas, the arraignment of persons indicted by the federal grand jury was begun at 10 o'clock this morning before Judge A. B. Anderson, it was expected at least two days would be taken in the arraignment. The trial of cases may begin next Monday, according to Frederick Van Nuy, United States district attorney. Arraignment of the coal men under indictment on the charge of conspiring to violate the Sherman anti-trust law has been set for May 3.

The offenses charged in the cases coming before the court this month are in violation of sixteen criminal statutes.

MAY FINISH THE JOB BY MIDNIGHT

If Legislature Follows Steering Committee Recommendations, it May Adjourn on Time

OLD SCHEME MAY BE USED

Custom of General Assembly to Turn Clock Back—Omnibus Plan May Also be Followed

(By United Press)

Indianapolis, Ind., Mar. 7.—In an effort to eliminate all "parliamentary horse play on the last day of the session," republican members of the house of representatives went into caucus this afternoon. They plan to throttle unnecessary debate, especially on the English joint resolution for amending the constitution to make the office of the state superintendent of instruction appointive instead of elective.

Much of the morning session was given over to the discussion of proposed amendments. Representative Fifield, republican floor leader, attempted to suspend the rules in passing the resolution but was unsuccessful. Following a long debate on it, the resolution was made a special order of business for this afternoon.

Most of the work of the senate was held up today and the upper branch did but little work, passing three bills providing for memorials for those who fought in the world war.

The house refused to pass the Cleveland senate bill which virtually urged mandates for every county in the state to appoint a county agriculture agent at a minimum salary of \$1,500. The bill provides that upon petition of 20 persons the county should employ an agriculture agent.

The memorial bills passed by the senate all apply to Indianapolis and would enable cities in Marion county to help the state to erect the memorial.

Several house bills of minor importance were also disposed of by the senate and now go to the governor for his signature.

Indianapolis, Ind., Mar. 7.—The seventy-second general assembly will adjourn sine die tonight with the expiration of the sixty-one day session. If it followed the precedent of past legislatures, the clocks will be stopped before midnight—the legal time for adjournment—and business will be transacted into the early hours of the morning in order to dispose of all pending matters.

Representative Fifield, majority leader of the house, said if the house of representatives acts only on those bills recommended by the steering committee, it will be possible to adjourn before 12 o'clock.

The steering committee favored only a part of the bills awaiting action, however. If the house should decide to take up those measures not recommended by the committee, it would be necessary either to institute the omnibus plan of considering several bills at one vote or hold the clock back several hours. If it should adhere to the steering plan throughout, several bills will die with the session.

It is customary for the governor to remain in his office until adjournment is taken and receive bills up to the last minute. Governor McCray has planned to keep his office open, because every bill received must be receipted for before the end of the session. Otherwise the measures die.

This assembly was delayed in starting by the inauguration of the McCray administration and by organization work, but after the stage was set, it got down to business within a few days. Of the first important measures taken up was the general appropriations bill carrying \$5,795,820, which usually is passed in the closing hours.

HIGH SCHOOL IS NOT DOWNHEARTED

Student Body is Anything But That, Judging From Talks Made at Meeting This Morning

REGRET OVER LOSS BUT HAPPY

Immense Crowds at Tournament Call Attention to Need of a Public Auditorium Here

Rushville high school is not downhearted because the basketball tournament, which closed Saturday night, went to Sandusky. The high school is anything but that, as was revealed by the speeches made at the opening hour this morning.

Superintendent J. H. Scholl, Principal A. M. Taylor, Coach A. H. Sutton and other members of the high school faculty made short inspirational speeches in which they praised the high school student body for its excellent support of the team during the season and paid a compliment to members of the high school team, which has made such a splendid record.

Members of the team also spoke briefly and leaders in the high school student activities made short talks regarding the basketball season and tournament.

The loss of the sectional, especially after the defeat of Milroy Friday night, was a source of profound regret for the high school pupils, but today they were taking it logically and were resigned to their defeat.

High school interest will now turn to track and field work and an effort will be made to put out a creditable team. The high school had some exceptional men in track and field athletics last year and the students are hopeful of making another good showing in the state meet.

The way Rushville people have supported the high school basketball team this year has been the occasion for much favorable comment from the school authorities and has left the impression with the high school as a whole, as well as the pupils of the lower grades, that the whole community is back of the schools and is willing to give them all the moral support possible.

MAKES APPEAL FOR MISSIONARY WORKERS

Dr. Royal J. Dye, Who Spent Twelve Years in Africa, Speaks at Christian Church

RELATES MANY EXPERIENCES

Dr. Royal J. Dye of Los Angeles, California, who spent twelve years in Africa as a missionary of the Christian church, spoke twice Sunday to two large audiences at the Main Street Christian church.

Dr. Dye's addresses were for the most part a recital of his experiences in Africa and an appeal for young people to prepare for missionary work. He was a medical missionary in Africa and was sent home eight years ago with sleeping sickness. Dr. Dye was never sent back due to this ailment and now devotes his time to visiting churches and pushing a campaign for more missionaries in the African field.

Dr. Dye spoke to the Sunday school and at the morning church service. He amused the Sunday school pupils with stories of his experiences with the superstitious natives who used all sorts of methods to keep away sicknesses. How he won the witch doctor by curing his mother beloved wife and converted his two sons who are now missionaries. Dr. Dye was the first to give the Africans a written language.

"Tomorrow's" Bills

Month by month the current bills come. Often, too, there are bills for sickness and other unforeseen emergencies.

Apparently the majority of people fail to provide for emergencies, as 97% of those 65 years of age are dependent upon the gifts of others. Future independence is assured only to those who spend less than they make. This margin, when deposited here in a savings account, not only earns 3% interest, but is an ever available emergency fund.

PRES. HARDING BEATS CLERKS TO THE OFFICE

President Begin Second Work-day in White House Long Before Employees Arrive

CABINET TO MEET TUESDAY

Washington, Mar. 7.—President Harding began his second workday in the White House by beating his entire force of secretaries and clerks to the executive offices. He arrived shortly after 8:30, a full hour before work usually begins and for some time was the only official present in that end of the White House. As soon as the President had settled himself at his desk, he called for his new Airedale dog, Laddie Boy, who took a place for the day on a couch in the President's office.

Putting into practice his policy of personal consultation with leaders in the congress, President Harding will talk over numerous policies of the administration at a White House dinner tonight, at which the ranking Republicans of the senate and house will be present.

The first cabinet meeting of the administration was called today for 11 o'clock tomorrow. Vice-President Coolidge was asked to attend.

The senators invited to dinner are Lodge, of Massachusetts, the Republican leader; Curtis, of Kansas, Republican whip; Penrose, of Pennsylvania; Warren, of Wyoming; Cummins, of Iowa; Knox, of Pennsylvania; Wadsworth, of New York; Poindexter, of Washington, and Johnson, of California.

Representative Mondell, of Wyoming, the Republican house leader, heads the list of representatives who will be present. The others are Fordney, of Michigan; Mann, of Illinois; Longworth, of Ohio; Kelly, of Michigan; Anthony, of Kansas; Slomp, of Virginia; Campbell, of Kansas; Porter, of Pennsylvania; Fess, of Ohio.

MOVE FOR PEACE RESOLUTION DELAYED

President Harding's Plans Upset by Germany's Refusal to Accept Reparation Terms

WOULD BE AN AFFRONT

(By United Press)

Washington, Mar. 7.—President Harding's plans for an immediate declaration of peace with Germany have been upset by that nation's stubborn refusal to accept the allied reparations terms, it was learned today.

Mr. Harding is said to feel that adoption of the Knox peace resolution at a time when British and French troops are mobilized to enforce the allied terms by marching into the Ruhr basin and occupying important German industrial centers would be construed abroad as a direct affront to this country's associates in the war.

One of Mr. Harding's campaign

pledges was to make formal peace with Germany immediately on entering the White House, but now he favors withholding action temporarily on the Knox resolution, which he previously had approved at Marion, and has suggested to senate leaders that they go ahead on the Colombian treaty and other agreements which still await ratification. Mr. Harding has decided that this is the best way to avoid appearing to approve Germany's present course.

Mr. Harding plans a further conference over the situation and legislative matters with Henry Cabot Lodge, Republican senate leader, at the White House.

Newspaper Advertising Starts the Wheels

In November, business had a bluish cast. The financial waters were troubled.

Corn and wheat and cotton were tumbling—business was halting and hesitating.

Everywhere you heard the croakers say, "People are not buying."

Then the retailers took the cold plunge. They began to readjust prices and offer inducements.

And they advertised the fact—advertised it in the newspapers of their home cities. They kept at it—and kept at it.

After a bit, buying began to wake up—slowly at first, then in greater volume.

Progressive merchants who know newspaper advertising pulls progressively went at it harder.

Business grew better and better, and by the last part of December many merchants were reporting record-breaking sales, and, taking the country as a whole, business was good.

Newspaper advertising saved the day and made it possible for the merchants to clear their shelves and re-order from the manufacturer—thus loosening the clogged stream of commerce and setting the factory wheels in motion.

Newspaper advertising is the greatest single business force on this continent today.

of state during the session. Engaged in his first fight for the repeal of the primary election law, Governor McCray suffered defeat when the legislature refused to change the law in any respect. The law makers also refused to recognize a few other requests, especially when it killed the Ratts bill limiting the work of women in industry to fifty-two hours a week. This was favored by the governor as a platform pledge.

More than eight hundred bills have been considered by the assembly. A few have never found their way out of the committees to which they were assigned. Those that were passed by a substantial margin and a good chance of being written into the statutes because Governor McCray will not veto such bills. He informed a group of legislators who asked that he approve certain measures.

The House of Representatives received 464 bills and the Senate 367. Among the more important bills passed by the legislature were those providing:

That the state board of agriculture shall be taken over and run by the state.

That city governments may adopt the city manager or commission form of government.

That cities may create commis-

sions on planning and may be divided into zones.

For changes in the teachers pension law so as to give them greater benefits from smaller premiums.

For a seven cent tax levy for common schools, an increase of 1.4 cents.

That the state finances shall be run on a budget plan.

For the removal of the reformatory from Jeffersonville to the state penal farm.

The Modern Trend

City newspapers and moving picture films are becoming filled with sensational sex stuff.

The reason is simple. The average city mind runs in that direction and demands what it wants.

The city newspaper that caters most to the popular demand gets the circulation, and circulation gets the advertising, and advertising supplies the dividends.

The same rule applies to the cinema houses.

A good, healthy, elevating picture will draw a few people, but a sensational sex or murder film will fill the house. Moving picture men are after the money, and they employ the means that they know will produce it.

Country districts have not become so badly tainted with modernism. The people are more in the open, are oftener in communion with nature, and breathe more freely of the purity of life away from the dens of vice and iniquity.

That is the situation today, but who can tell as to the morrow?

It depends upon the mental and moral training of our young people.

The ideas we instill into the minds of little children will have much to do with the bent of their mentality when they reach the age of maturity.

If we implant in their minds a healthy respect for the teachings of Christianity and a devotion to the cause of right and justice, of purity in thought and action, they may escape the wave of viciousness that is sweeping the adult world.

But our hope for a better future rests with the children of today.

When we want to teach a dog tricks we begin when he is young.

The human race is not so far removed from the brute creation but what the same rule will apply.

Cutting the Newspaper's Throat

The subscriber to the country weekly not infrequently complains when he finds the subscription price of his paper is nearly doubled.

The country merchant makes a far more strenuous objection when he finds that the advertising rates are increased.

The man who wants to insert a want ad or a for sale notice delays the passing of the good old days when it could be done for much less.

The women protest that the publisher is becoming a profiteer when he is compelled to charge them for the church bazaar notice that used to be free.

But every one of them is contributing to the conditions that make these increases imperative.

The subscriber, the want ad man, and the church women, all help by buying goods done up in carefully labeled paper containers, which the merchant sells.

Not one of them probably ever thought of the increasing amount of

wood pulp that is going into the manufacture of these paper containers.

Not one of them has ever considered that this wood pulp consumption is making itself felt in the increased price of newspaper print.

Probably when it is brought to their attention, they will be indifferent.

And one of these days the paper will not show up. They will have helped cut its throat.

It has happened a thousand times during the last year.

The remedy: Demand goods in bulk.

Regardless of price conditions, the crop of free advice has not diminished.

Soon, now, the grass will begin to grow again, but don't let it be under your feet.

The love that never grows less isn't love—it's greed.

Don't force too much goodness onto the boy while he is young. Leave a little for his old age, and he won't forget.

Japanese liberals are said to be intensely desirous of friendship with America. There are at least a dozen of them.

Lenin, the Russian dictator, denies that he is dead. Possibly he knows.

Emma Goldman says she is mighty sick of soviet Russia, and wants to return to America. But at that she can hardly realize how we felt toward her.

Just Four Words

All this nonsense about Japan can be dispelled in a sentence. The four Overseas Dominions of the British Empire would never, never allow Britain to go to war against us in an alliance with any Asiatic power.

A Public Service

Officers of the American Legion perform an important public service in asking a Congressional inquiry of their charge, that the War Department "has done nothing but promise prosecution" of draft evaders and deserters. There are said to be over 150,000 of these offenders. It is of great moment that they should not escape punishment under the law. The War Department may be the American people, but if there is to be any respect for law, or justice, or patriotism, the shirkers who defied the law in 1917 and saved their skins should not be allowed to get away with it.—CHICAGO TRIBUNE

THE WOODS

BY DOUGLAS MALLOCH

BROTHERS AND SONS.

ON a dirty floor at a slimy bar in the anteroom of hell

I have seen them stand with a devil's leer, I have heard the tales they tell—

I have heard them brag of the brutish things, I have heard them boast of shame,

Till I longed again for the Jewish God, for the God who smote with flame.

And I wondered much if there lingered still not a dream of boyhood land.

Not a tender thought of a mother's kiss or a touch of sister's hand.

For we wander far, and the years go by, and the boyhood vision fades.

Yet we are the sons of the mothers of men and brother to all the maids.

And it is not there in the wild alone that the souls of men forget;

In the house of pride, on the polished stair, where the glided ones are met,

I have heard the tale that is often told on the dirty bar-room floor

While the idle smiled, and the lounge laughed, and the bestial asked for more.

For the thing we are is the thing we are, not the thing in garments new;

And the coat that fits is the tailor's coat, but the man inside is you.

It is such as I, it is such as you, that have made the jests and jades—

Yet we are the sons of the mothers of men and brother to all the maids.

Yea, the sons we are of a motherhood, of a mother-love, divine.

And I can not slander this mother yours—if I do I slander mine;

Yea, the brothers are of a sisterhood of the sisters loved or lone,

And you can not slander the least and say that the world shall spare your own.

For a woman's name and a woman's fame they are sweet, and frail, as flowers;

But the strength to shield and the arm to wield for the woman's name are ours.

Let the God-made man keep his God-made trust till his life's last twilight fades—

For we are the sons of the mothers of men and brother to all the maids.

AIRSHIP ROUTE TO THE NEW OIL FIELDS

Edmonton, Alta., March 7.—Prospects bound for the Fort Norman oil fields on the Mackenzie River to seek their fortune next spring will be able—if they have \$1,500 to spare—to fly to the new bonanza land by dirigible balloon.

Major Jenner and Major Wollan of Los Angeles, promoters of the air line, recently visited northern Alberta to select a site for an air-drome. The airship they will use is now on order in New York and will, they declare, have a capacity of 350,000,000 cubic feet of gas and will be capable of flying at a rate of seventy miles an hour. It will carry thirty-two passengers, five tons of freight and 700 gallons of gasoline. The southern terminus of the dirigible route will be either Peace River Landing, at the end of the Canadian Pacific's northern spur, or Fort McMurray, at the end of the Alberta & Great Waterways Railway. From either of these places an airline to Fort Norman is about 900 miles.

"The recent discovery of a gusher well on the Mackenzie River has led scientists to believe that the world's greatest reservoir of oil has been tapped and unquestionably will result next spring in a stampede comparable to the old Klondike rush," said Major Jenner. "The dirigible is a same method of travel over the wilderness country because it can land where an airplane can not and engine trouble will not necessitate its coming to earth. The \$1,500 will include an insurance policy."

Both promoters served in the war, Major Jenner with the Canadian air forces and Major Wollan with the United States naval air force.

INDEPENDENTS CLOSE HOME SEASON TUESDAY

Odd Fellows Basketball Team Will
Play Shelbyville, Which Won Here
Before

TWO MORE SCHEDULED GAMES

The Odd Fellows basketball team
will end the home season tomorrow
night when they play the fast Shel-
byville Independents for the second
time this season. The game here
earlier in the season resulted in a
victory for the Shelby county team
by a lone point, and it was by far
one of the most interesting games
played.

The local team will play at Shel-
byville on Friday night, at Carthage
on Saturday night and will end the
season at Newcastle on Tuesday
night.

Shelbyville has sent word that
they are bringing a strong line-up
here tomorrow night, and it was in-
timated that Richeson, the star for-
ward on the high school team, would
be in the line-up, as the Shelbyville
high school is now out of running,
having been defeated at Franklin.
This will place both Richeson bro-
thers in the line-up and the locals
will have to exert themselves in or-
der to win.

FLEET SANDUSKY PLAYERS CHAMPS

Team Which Upset Dope Saturday
Afternoon by Defeating Rushville,
Also Takes Manilla

FINAL PROVES A CLOSE GAME

Walker Township Lads Fight All
The Way and For a Few Min-
utes Are in the Lead

The Sandusky high school team
won the sectional honors here in the
final game Saturday night when they
defeated the Manilla team, 18 to 12.
The Rush county quintet put up a
strong fight in an effort to defeat
the Decatur county team, but the
accurate goal shooting of the San-
dusky forwards proved to be their
downfall.

Sandusky was originally included
in the four teams mentioned as dis-
trict winners, but it was generally
conceded that the honors would fall
either to Milroy or Rushville. After
Milroy was eliminated by Rushville
on Friday night, the local team was
given an edge on the "dope."

In the afternoon game Saturday
when the diminutive Sandusky team
outclassed Rushville, the "dope" in
the tournament was completely up-
set. Rushville entered the game with
too much confidence, and Sandusky
took a lead early, which they main-
tained to a good advantage all the
way through. At half time the
score stood 15 to 10.

The winners of the sectional hon-
ors will meet the Central high school
from Evansville next Saturday
morning at nine o'clock at Bloom-
ington. The strength of the Evans-
ville team is not known, but it will
take a strong team to down the
swift Sandusky players, because
they are small and fast, with al-
most a never failing eye for the
basket.

In the final game Saturday night
Manilla entered the contest with
high spirits, and for a few minutes
was ahead of Sandusky. It was not
long until Palmer, the small forward
for Sandusky, began to find the bas-
ket, and before the period had end-
ed he had made three field goals.

When the half ended the score
stood 13 to 8, and in the last half
Manilla never gave up but attempted
to stop the Decatur county team. In
this half Sandusky scored five
points while Manilla made four.

The winning team was given a big
send off by the rooters and they
were heartily supported by the Mil-
roy delegation as well as people liv-
ing in the southern half of Rush
county. Manilla, the Rush county
team, was not given much support,
except from Rushville people who
wanted to be loyal to a Rush county
team.

One of the exciting games of the
tourney was held Saturday after-
noon at three o'clock when Manilla
earned the right to play in the final
game by defeating Carthage. Car-
thage had the big advantage at the
end of the first half when the score
stood in their favor, 6 to 2.

In the last half Manilla began to
hit their stride and the game began
to be a see-saw affair with first one
team in the lead and then another.
Manilla, however, scored two field
goals in the last few minutes of
play which gave them a three point
lead, winning 16 to 13.

The summary of the final game
Saturday night:
Sandusky (18) Manilla (12)
R. Marlow F. M. Edwards
Palmer F. O. Edwards
C. Marlow C. Brown
Wilson G. Meid
Richards G. Hutchens
Field goals: Marlow 2, Palmer 3,
C. Marlow 2, M. Edwards 2, O.
Edwards 2, Brown 2.
Foul goals, R. Marlow 4.

BETTER THAN CALOMEL

Thousands Have Discovered
Dr. Edwards' Olive Tablets
Are a Harmless Substitute

Dr. Edwards' Olive Tablets are the
result of Dr. Edwards' determination
not to treat liver and bowel complaints
with calomel. For 17 years he used
these tablets (a vegetable compound
mixed with olive oil) in his private
practice with great success.
They do all the good that calomel
does but have no bad after effects. No
pains, no griping, no injury to the
gums or danger from acid foods—yet
they stimulate the liver and bowels.
Take Dr. Edwards' Olive Tablets
when you feel "lasy" and "heavy."
Note how they clear clouded brain and
perk up the spirits.

SOCIETY

The vocal pupils of C. A. Dobson who has conducted a class in this city, will give a recital Tuesday evening at the home of Miss Florine Gronier.

The Helping Hand Society of the Homer Christian church will meet with Mrs. Cyrus Willey Wednesday afternoon. Every member is requested to be present.

The Always Present Class of the Main Street Christian church will be entertained tomorrow evening by Mrs. Orville Evans at the home of William Evans in Circleville.

The Ladies Aid Society of the First United Presbyterian church will be entertained tomorrow afternoon at two o'clock at the home of Mrs. Bert Trabue, in North Harrison street. All the members are urged to be present.

The meeting of the Pastor's Aid Society of the Main Street Christian church has been postponed from tomorrow afternoon until the next regular meeting, March 29, on account of the funeral services of Dr. C. H. Parsons.

The Ladies Aid Society of the Pleasant Ridge M. E. church will be entertained Wednesday afternoon at the home of Mrs. Edith Ruddell, living southwest of the city. All the members are cordially invited to attend this meeting.

The Ladies Aid Society of the St. Paul's M. E. church will meet with Mrs. W. D. Root, corner Fifth and Perkins street, Tuesday afternoon at 2:30 o'clock. She will be assisted by Mrs. Frank Wolcott and Miss Sadie Williams. The meeting place was changed on account of the death of Dr. C. H. Parsons.

Miss Mildred Newman, daughter of Mr. and Mrs. Charles Newman and Virgil Myers, son of Mr. and Mrs. John Myers, all of this city, were married Saturday night at eight o'clock by the Rev. C. S. Black at the St. Paul's M. E. parsonage. Mr. and Mrs. Myers will reside here. They were attended by several young people.

Miss Hypathia Powell, daughter of William Powell, living northwest of the city, and Edward E. Johnson, son of Lafe Johnson, living in this city, were quietly married Saturday evening at 7:30 o'clock at the Main Street Christian parsonage by the Rev. L. E. Brown. Mr. and Mrs. Johnson will make their future home in this city, in North Main street.

Mrs. Robert Powell entertained thirty-two of her friends Friday evening with a pitch-in supper at her

home northwest of the city. The color scheme was green and white. The center piece for the table was white hyacinths and ferns and the favors were shamrocks. Following the repast the remainder of the evening was enjoyed with games and music.

Mr. and Mrs. Charles Dolan entertained with a prettily appointed dinner party Sunday at their home near Falmouth. A delicious course dinner was served to the following guests: Mr. and Mrs. Glen Dolan, Mr. and Mrs. Roy Dolan, Mr. and Mrs. Ed Dolan, Mr. and Mrs. Claude Canady, Mr. and Mrs. James George, Mrs. Nelle Ewbank and daughter. In the evening the Misses Ellen and Flora Sheriell of Rising Sun and Dewey Ewbank were guests.

Friends and relatives of Mr. and Mrs. Clyde Owens of near Mays, delightfully surprised them Friday evening with a pitch-in supper, the occasion being in honor of their second wedding anniversary. Those who enjoyed the affair were Mr. and Mrs. Ors Meek, Mr. and Mrs. Charles Griffin, Mr. and Mrs. Earl Wright, Mr. and Mrs. Alva Cole and family, Mr. and Mrs. Wayne Addison, the Misses Louisa and Mary Mahan, Lois Fry, Roberta Addison, Helen Hulley and Ora Reeves and Fred Mahan, Say Sample, Goley Meek, Bufure Hulley and Mr. and Mrs. S. R. Mahan.

Mr. and Mrs. Thomas Kirk entertained yesterday at their home in West Third street, honoring Mrs. Kirk's mother, Mrs. Mary Heaney, the occasion being her 86th birthday. At noon the guests were called into the dining room where a four course dinner was served. The centerpiece for the table was a large birthday cake and a bouquet of pink roses. At six o'clock a luncheon was served to the guests who were: Mr. and Mrs. Joseph Buschmohle and children Joseph, Jr., Mary Catherine and Thomas E., Thomas Horr, John Heaney and the Misses Marie Perkins, Libby Schatz, Mary Ellen Hughes, Margaret Trader, Mildred M., Margaret and Helen Kirk. The day was enjoyed in a social good time with music and games.

Miss Donnan's Class in Literature met on Saturday afternoon at the home of Mrs. Robert Thompkins. After some interesting miscellaneous talk about theatrical things, especially interesting articles in the current magazines, and announcements of new books, Miss Donnan discussed the last play of Eugene O'Neil, "Emperor Jones," which the Little Theatre in Indianapolis is to produce soon; and then the last volume of essays by H. K. Mencken, one of the most conspicuous critics

of the day. After the intermission, a chapter in Mr. Cabell's "Beyond Life" was the subject, illustrated by accounts of Sheridan's "School for Scandal" and "The Rivals."

The Tri Kappa sorority will be entertained by Miss Margaret Mahin at her home, corner of Fourth and Harrison streets, this evening.

The Ladies Missionary Society of the First Baptist church will be entertained at the home of Mrs. Fred Arbuckle in West Second street on Wednesday afternoon at two-thirty o'clock.

DOWNHEARTED

Continued from Page One
and principal of the high school have been invited to be the guests of the Rotary club at the regular weekly luncheon at the Social club Tuesday noon.

The immense crowds which attended the sectional tournament this year called attention to the fact that the gymnasium is far too small to accommodate a tournament crowd and made very plain the need of a public auditorium.

Many have expressed the opinion that the running track, which serves as a balcony during the basketball season, should be reinforced before another basketball season opens because of the danger of a catastrophe.

When the gymnasium was packed to the roof Friday night, Mr. Taylor called to the attention of the people in the balcony that they should be very quiet because of the danger of it giving away under such great weight. The crowd under the balcony at the south end received a scare when some of the steam pipes made a noise while cooling off. People immediately thought that the balcony was giving away and many left their seats.

REVISION IN TAX LAW COMES FIRST

Expected New Administration Will Give Preference to This Matter Over Tariff Legislation

TO SIDETRACK FARM AID BILL

Republican Leaders Said to be Glad Fordney Emergency Tariff Measure Was Not Passed

Washington, Mar. 7—Within the present week a decision may be made by President Harding and the Senate Republican leaders on two matter of far-reaching importance. Almost at the very outset of the new administration it will be determined, according to a report here today, whether revision of the taxes shall be taken up ahead of the proposed revision of the tariff.

In his inaugural address, President Harding limited himself to a general discussion of taxes and tariff and business problems confronting the government. It is understood, however, that he had considered those subjects with Senator Lodge, Penrose, Watson, New, Knox, and a few others with the view of reaching an early decision on a definite program.

There is an upsurge of demand throughout the country for immediate revision of the income tax law. The Republican national campaign, so far as the business men were concerned, was founded largely on a promise of a repeal of the excess profits tax and a reduction of the surtax as soon as possible.

Vast expenditures of the government have given rise to doubt whether the new administration can lower taxes and at the same time provide sufficient revenue. During consideration of the appropriation measures of the last session of Congress it was evident that the amount required by the government for the next year or longer will be practically as great as it was last year.

Suggestions that revenues be raised by increasing the tariff are not taken as seriously as they were a few months ago. High tariff advocates are active, but it is no secret that the Republican leadership of the Senate and Congress was pleased and greatly relieved when President Wilson vetoed the Fordney emergency tariff bill designed for relief of farmers.

Senators close to the new throne are saying it is likely that tariff legislation will be put aside for the present and taxation revision taken up soon after President Harding calls Congress into an extra session next month.

The tentative plan said to have the endorsement of the Republican leadership of the Senate is the following:

1. Postponement of tariff legislation for at least six months on the ground that it will be better to wait until the European nations have readjusted their financial conditions before this country attempts a general revision of the schedules. One prominent Republican senator said today that a tariff enacted now may become obsolete six months hence, owing to shifting conditions in Europe.
2. Immediate consideration of a general revision of the tax laws looking to repeal of the excess profits tax and to reduction of surtaxes to 30 percent.
3. Adoption of a sales tax which, it is estimated, can be made to provide sufficient revenues without placing additional burdens on the people.

STANLEY FUNERAL TODAY

Funeral services for Mrs. Sue Stanley of Arlington, were held this morning at the Arlington Christian church, with burial in the Arlington cemetery. Mrs. Stanley died Friday night, and the funeral was originally set for Tuesday afternoon, but word from relatives from a distance stated that they would be unable to attend, so the services were held this morning.

FRENCH CALLED TO COLORS

Paris, Mar. 7—The chamber of deputies by a large majority late last night adopted the government proposal to call the class of 1921 to the colors in view of the German reparations situation. Toward the close of the situation Centrist and socialist deputies engaged in a bitter dispute and almost came to blows.

STATED MEETING

Phoenix Lodge No. 62, F. & A. M. will hold their regular stated meeting Tuesday evening beginning at 7:30. Members are urged to be present.

There is such a satisfaction in being well dressed; good clothes add so much to one's self confidence that they are probably your most valuable asset. Good clothes and "That Well Dressed Look" are just what this store supplies.

You want good quality—be sure you get it

It may not be in terms of "quality" that you buy, but you do ask for a suit or coat that will wear; you want to be sure that the edges will not curl, or the skirt sag; you know you'll want more than a season's wear and so you seek a style that will last.

And it all boils down to the question of quality, of tailoring and finishing and materials. And because we know you'll insist on good quality we offer you nothing else. In fact we recommend

Wooltex Tailor - mades

because in them you can be sure of the best; fine hand tailoring, all-wool fabrics, styles that are correct and that will be just as much in style next season or next year as they are now.

FAT MOUSE'S ESCAPE

M. FAT MOUSE—his friends called him Fatty for short—decided one day that he would move from the house where he lived in the pantry wall because there were so many mice living in the neighborhood.

"When I first came here," said Fatty to himself one day when he was thinking how hard it was for him to keep fat and round, "there were only five mice living in the wall, and now I cannot count them. It is time for me to move, and I shall look about this very night for a new home."

So when all the other mice were busy running over the pantry shelves

Fatty Mouse ran out of the door and under the kitchen sink, where he found a hole large enough for him to get through.

He jumped into the yard and ran for a long time, and then next night found Fatty in his new home in the pantry of a house far away.

But Fatty Mouse had no home in

the wall of this pantry, and he had to hide in the daytime behind boxes and pails and anything he could, for there had never been a mouse in this pantry and there were no nice places to run in when anyone came in the door.

But there was plenty to eat, and Fatty ate all night and slept all day, and he was sure he had found a pleasant place to live in even if he had no companions.

One day while he was resting behind a basket what should happen but that some one came in the pantry and lifted the basket from the floor, and poor Fatty Mouse had to run.

Around and around the pantry he flew while some one chased him with a broom, and a dreadful puss joined in the chase as well.

Just as Fatty was sure he was lost he ran up the side of the flour barrel and jumped to the shelf, and as quick as a flash he ran along to the door, which was open, and with a leap he was in the kitchen.

"It may not be so easy to get food here," he said, as he thought it over when he was safe in the wall, "but it is much safer here, for there are so many mice living here that the other fellow may be caught when they hunt for me."

"When I lived alone in the pantry I was the only one there after, and my life was not worth a crumb. I shall stay here as long as I live, and never move again, for all mice look alike to cats and people."

Spring Time Is Paper Time

The Bedroom

A LIGHT, cleanly and cheerful style is most appropriate in the bedroom. Likewise a greater degree of contrast may be admitted in the wall paper than in any other apartment of the home, as the bed forms a sufficient mass of neutral white to balance a tint of equal intensity on the walls.

In the above sketch the walls are papered in a medium toned bedroom stripe which can be either a pink and grey or a lilac and yellow combination. We will gladly show you either of these attractive bedroom papers and many other equally beautiful ones here at our store.

We shall be pleased at all times to help you plan suitable decorations for your home.

AUTO DEALERS TO MEET WEDNESDAY

State Association Will Hear Address
by George Graham, Noted Auto-
mobile Man

AUTO SHOW IS NEXT WEEK

Banquet For Dealers Will be Among
The Many Features That Will
Take Place Then

Indianapolis, Ind., Mar. 7—Old Man Depression is to be given a solar plexus blow by the automobile men of Indiana at their state session Wednesday, March 9, according to the declaration of N. H. Cartinour, president of the Indiana Automotive Association.

Cartinour announced today that one of the chief features of the meeting will be the noon luncheon at which George Graham, of Buffalo, a noted automobile man and an orator, will tell his hearers "How to Make The Grade in 1921." The state meeting is to be one of the special features of the automobile show week in this city.

"The automobile business is now so important as to occupy the position of being a generally accepted barometer of trade," said Cartinour today. "The result of the shows held in New York, Chicago, Cleveland, Minneapolis and elsewhere has been renewed activity in the industry, fresh orders for the dealers and a liberal supply of prospects."

"We are confident the Indianapolis show will run the same thing and this state gathering of automobilemen will serve to spread the stimulus. This is bound to have its effect on all lines of business and, in short, we feel positively that the auto trade is going to come back strong with the first real spring weather. We are in the band wagon now—let other lines of business fall in behind and keep pace with us if they can."

A feature of the state dealer's meeting will be the joint session of the Kiwanis club of this city, noted as "peptomists". It is stated the local show will have 117 distinct exhibits: that \$7,000 is being spent for decorations and \$6,000 for advertising. The highest priced automobile ever shown in Indiana listing at \$16,600 will be displayed by one dealer and the total displays will be worth other \$1,000,000.

OPEN SEASON FOR JOB HUNTER HERE

Mails Are all Cluttered up With Petitions Seeking Postmastership Recommendations

NOT SO BAD FOR PRESIDENT

Washington, Mar. 7—Now comes the open season for pestering the President about Postmasterships. Speaking from a Presidential standpoint the worry isn't as bad as it used to be when the Civil Service wasn't even supposed to apply to postofficeships. Of course there are those hereabouts who dabble deep in practical politics who might maintain that the civil service is still merely a beautiful theory as far as postmasters are concerned and the boy with the biggest political pull invariably gets the appointment.

The mails of Senators and Congressmen are all cluttered up these days with petitions seeking postmastership recommendations, for, other things being equal, the President's appointments to postmasterships usually are the recommendations of the members of Congress of his party.

TALKS TO GREENSBURG Y.M.C.A. BIBLE CLASS

L. E. Brown Delivers One of Best
Addresses of Series, News-
paper Reports

HALF HUNDRED MEN ATTEND

The Rev. L. E. Brown, pastor of the Main Street Christian church of this city delivered an eloquent address before the Y. M. C. A. men's Bible class at Greensburg last Friday night. It was characterized by the Greensburg News as one of the best the class ever heard. The News continues as follows:

"He prefaced his speech by observing that the Bible contained many illustrations of natural things to teach spiritual truths. He selected one as an example; Prov. 20; 27—'The spirit of man is the lamp of Jehovah, searching the innermost parts and from it drew some very interesting deductions. The spirit of man is the image of God and it is therefore the essential part of man. Man is the most dependent creature in the world, for months he is a helpless infant but when he is fully developed physically, mentally and spiritually he is the acme of creation.'

"It is the truths of the Bible that has transformed the world. Take its influence away and he would go back to savagery. Man is represented by the candle and the torch that lights the candle is the truth of Christ as revealed in the Bible. This is the light that is to penetrate the dark places of sin and illuminate the world. Light gives health, dispels darkness and renews service in showing the way. He complimented Mr. Mowrey for erecting the Y. M. C. A., which is a light-house to young men."

GIRL'S STATEMENT WILL HELP RUSHVILLE

Many women will profit by the following statement of one of their sex: "I was afraid to eat on account of stomach trouble. Even rice did not agree. After taking Adler-i-ka I can eat anything." Adler-i-ka acts on BOTH upper and lower bowel, removing foul matter which poisoned stomach. EXCELLENT for gas on the stomach or sour stomach. Guards against appendicitis. Adler-i-ka removes matter you never thought was in your system and which may have been poisoning you for months. F. E. Wolcott, druggist.—(Adv.) 4

SUGGESTS OPERA AS GEOGRAPHY STUDY

Geographic Society Bulletin Points Out Geographic Character of Midway's Adornment

MAY BE USED AS LABORATORY

Woman Has Called Upon Land and Sea to Yield up Their Treasures For Her Adornment

(By United Press.)

Washington, March 7.—The opera as a laboratory for young American students of geography is suggested in a bulletin of the National Geographic Society just issued.

"Woman has called upon land and sea, the birds of the air and subterranean channels of the earth to yield up their treasures for her adornment," the bulletin says, pointing out the geographic character of Midway's adornment at the opera.

Powerful birds on a South African farm yielded their wing and tail feathers for the gaily-colored fan she stirs lazily, the society said, and a magnificent jungle beast of India or the Congo trumpeted his death cry as he yielded his tusks for the slender ivory handle.

"Carelessly tossed aside lies the luxurious wrap," the article said. "The hundred or more of little 18-inch dark brown animals required to make this coat tempted trappers into difficult and dangerous enterprises on the frozen areas or northern Russia and Siberia. The fragrance that intrigues your senses is probably the distilled petals of roses grown in fertile valleys of Bulgaria. A Chinaman in Shantung shed his queue to furnish the material for the net that holds the coiffure in unblemished undulations, and smelly stockyards of Kansas City or Chicago gave from its refuse heap that unobtrusive bone hairpins might hold the smooth coils in place. The slow and sure tortoise furnished the beautiful ornament of her hair.

"The ropes of gleaming white pearls that caress her throat were probably gouged from the hearts of the huge thick-shelled oysters of the South Seas, Australia, Philippines and Burma or from the small thin-shelled ones of Venezuela, Japan, Persia, and Ceylon. The platinum clasps came from Colombia and the diamonds which stud it from Brazil or South Africa, to be polished by the diamond cutters in Antwerp, Amsterdam or Bruges. The tiny jeweled watch on her wrist had the 175 pieces in its tiny 'insides' made by a Swiss workman, whose skill was so great that he made no mistake in fitting in screws which to the unpracticed eye resemble dust particles.

"The soft lustrous silk of her gown acquired its shimmer in the looms of Lyons, France, which prepares about one-third of all the raw silk produced in or brought to Europe. The lace with which the artist-modiste varied the fabric probably grew under the hands of diligent peasant women in the Vosges Mountains, or in the cellars of a rain-soaked Belgium dwelling.

"The silver buckles on her pumps were hammered by an artisan from raw material gleamed from the mines of our own Rocky Mountain or Great Basin States or from Mexico, which for many years produced more than a third of the world's output. But the pumps, most likely were made in Massachusetts and the silk stockings in Wisconsin."

* HOUSE MADE TO ORDER IN ONLY TEN MINUTES *

Bridgeport, Conn., Mar. 7.—A house to order in ten minutes. Order your bungalow today and it will be ready for delivery tomorrow. That is the offer of a local company, which is producing reinforced concrete houses, invented by Simon Lake of this city, inventor of the submarine.

The company has taken over the yards of the Housatonic Shipbuilding company, where wooden ships were built during the war for the Emergency Fleet corporation, and within a short time expects to turn out these houses at the rate of four a day. The actual casting of the houses, which is done in one piece, takes only ten minutes, according to Robert C. Lafferty, architect and president of the company, who designed the house.

Lafferty calls the house "a revolution in home building." His model home was set up on a vacant lot in the center of the city today.

ASPIRIN

Name "Bayer" on Genuine

It's criminal to take a chance on any substitute for "Bayer Tablets of Aspirin." Unless you see the name "Bayer" on package or on tablets you are not getting genuine Aspirin prescribed by physicians for twenty-one years and proved safe by millions. Take Aspirin only as told in the Bayer package for Colds, Headache, Neuralgia, Rheumatism, Earache, Toothache, Lumbago and for Pain. Handy tin boxes of twelve tablets cost few cents. Druggists also sell larger packages. Aspirin is the trade mark of Bayer Manufacture of Mono-aceticacidester of Salicylicacid.

25

If, out of every one hundred people in civilized lands, seventy-five were minus one hand, one foot, one ear, everyone would marvel.

Yet it is a fact that today seventy-five people in every hundred are defective in what is undoubtedly our most precious gift—the faculty of sight.

There are only twenty-five people in every hundred who have perfect sight. The remainder are — or should be—wearing glasses in order to correct the deficiencies of their vision.

If you are not absolutely positive that you have perfect vision call and let us make a careful, scientific examination of your eyes.

BILL FOUND WITH
NO ENACTING CLAUSE

Measure Was Sponsored by Rep. Harrison and Had Passed Through 5 Stages of Its Career

IT CAN NOT BECOME A LAW

Indianapolis, Ind., Mar. 7.—When the house of representatives placed a bill on passage, it was discovered the measure had no enacting clause. The measure which was sponsored by Representative Harrison of Indianapolis had passed through four stages of its legislative career.

It was drafted by the legislative reference bureau, was reported favorably by the committee on benevolent and scientific institutions, the committee on enrolled bills, the committee on phraseology of bills and the committee on "engrossed" bills. Besides this, it had passed through second reading when it was thrown open to inspection by the entire house.

Without an enacting clause, a bill cannot become a law.

* OPEN Y. W. C. A. ROOMS *
* TO DANCING AND CARDS *

London, (By Mail to U. P.)—There is trouble in the camp of the Young Women's Christian Association here. Recently it has been advocated that, as the women are not only Christians, but young, they should be allowed to disport themselves after the manner of youth, and this has resulted in the innovation of dancing, card-playing, smoking and theatricals.

On this account many have seceded from membership declaring these things are not compatible with the aim of the Association.

This has not altered the policy of the authorities. At most, Y. W. C. A. Assembly Rooms the dancing continues, as well as any other youthful pastimes the members care to indulge in.

Broadened by war experience, nearly all sects of the Church today say Christianity does not necessarily mean Puritanity and many a returned minister is busying himself with arranging Sunday football matches for his flock, while vicarages and village greens are thrown open to the young folk who have caught the dancing fever.

The clergy declare that sermonizing and text-reading are no antidote to the mischief that waits on "idle hands."

Colds, Grippe, Thin, Watery or
Poisoned Blood

Bloodless, thin, anemic people should try the refreshing tonic powers of a good alternative and blood purifier. Dr. Pierce's Golden Medical Discovery is a standard remedy that can be obtained in tablet or liquid form.

Muncie, Ind.—"When I had a severe cough, night sweats, loss of weight and appetite, I tried Dr. Pierce's Golden Medical Discovery. I took it faithfully for about 40 days, and gradually I gained; the cough disappeared and I put on flesh and got strong again. I have had no cough since, for 14 years."—Mrs. Lucy McCoy, 512 E. 12,000 COMMON
SCHOOLS IN STATE

According to Figures Available, There Was an Increase of About 2,000 During Last 10 Years

732 HIGH SCHOOLS REPORTED

Average Salary of School Teachers 10 Years Ago Was \$2.62 With 100 Working Days

Indianapolis, Ind., Mar. 7.—There are approximately 12,000 common schools in Indiana, according to figures available here today. This is an increase of about 2,000, during the last ten years.

In 1911, Indiana had 10,611 common schools. Of these, 9,316 were township schools and 845 city schools. A total of 5,796 were brick buildings and 4,335 were frame structures.

Every year between 150 and 200 new schools are being constructed, the figures showed.

In 1911, Indiana claimed 355 high schools including private and parochial. Today there are 732, not including those not recognized by the state department of public instruction.

The average salary of school teachers ten years ago was \$2.62 with approximately 100 working days each year, it was learned. Should the bill which is pending in the legislature become a law, the lowest average daily wage of teachers would be \$3.17 while there is no limit to the maximum.

High school teachers in 1911 were paid an average salary of \$4.03 a day and it is believed the high school teacher this year will draw an average of about \$5.00 a day with approximately 200 working days. In some communities, the school year averages nine months, while in others it is as low as six months.

So far as could be ascertained, there are only two common schools and no high schools which straddle the state boundary line. One of these is located at Union City and the other at College Corners, both of the Indiana-Ohio state line. At these places, the teachers are required to hold two licenses, one for Indiana and one for Ohio.

This kind of a school is generally considered "meat" for the youngster who wishes to play "hooky". In event that he should stay away from school and goes into another state, to extradite him. This procedure usually takes a week at least and the best thing that principals of the schools or teachers are able to do is to wait until the youngster wishes to resume his school room seat.

* Lives on Popcorn For 4 Days *

Bluffton, Ind., March 7.—Probation Officer W. A. Lipkey reported to the court here that he had discovered a family living in Union township who had not had anything except popcorn to eat for four days. The children were underfed and the county assisted the father to find employment. It was learned the family had been without money to buy food, but that a supply of popcorn was in the house and rather than make their plight known, they subsisted on it.

A. C. Billman, of Indiana, who says Tanlac is unquestionably the greatest medicine he ever heard of. "It put me back on my feet after I had practically given up all hope of ever being well again," he states.

"Tanlac is unquestionably the greatest medicine I ever heard of. After I had practically given up all hope of ever being well again, it put me right back on my feet, and I am feeling one hundred per cent better than I have for twenty years. I have gained ten pounds in weight, and every one says I don't look like the same person.

"For several months I suffered from a serious stomach disorder. I had no appetite and couldn't eat enough to keep up my strength. Very often when I sat down to a meal I would leave the table without touching anything scarcely, as I could not bear the sight of food, much less eat it.

"I was losing in weight and my friends would often ask me: 'What is wrong with you? Why are you looking so thin?'"

"I also suffered terribly with pains across the small of my back and over my kidneys. It was almost impossible for me to get out of bed in the morning as my back would pain me so I would almost fall over when I would first stand up in the morning. At night my back pained me so it was almost impossible for me to sleep. I would lie first on one side and then on the other, and would roll and toss all night long. I had almost given up and thought, maybe my age was against me, as I had taken so many different kinds of medicine without results.

"The first bottle of Tanlac didn't help me much, but I made up my mind to give it a fair trial. After starting on the second bottle I began to feel better. My appetite returned and it just looked like I could hardly wait for meal time to come. In fact, I was hungry all the time.

"My back and kidneys don't bother me any more and I can sleep like a log now. Tanlac has just simply made a new man of me, and any one living in this county can tell you the same thing, as everybody knows me and knows the shape I was in."

The above statement was made recently by A. C. Billman, of Ligonier, Ind. Mr. Billman has lived in Noble County all his life and is a well-known and highly-respected citizen of that county.

Tanlac is sold in Rushville by F. B. Johnson Co., in Milroy by Dallas Copper, in Manilla by Geo. J. Inlow, in Arlington by Mrs. L. T. Davis, in Carthage by Otto C. McCarty, and in New Salem by Mrs. Jos. Hankins, R. R. 2.—(Advertisement)

WALL PAPER

DINAH'S specialty was pancakes. Smith consumed loads of them every morning—he never knew how many, but at least a dozen or so. This particular morning when he entered the kitchen to praise Dinah's pancakes, he was greeted with a barrage of pans, tea cups, skillet and pancake batter. "When you-all gonna have this here kitchen repapered?" roared Dinah. And Smith rushed to the phone and called us because he knew we were great on settling little affairs like this as well as supplying fine wall paper. But try us yourself.

U.S. "MOVIE" HOLDS PLACE IN FRANCE

Seventy-Five Percent of Pictures Shown on Screen in Paris Are American Product

MOVIES BORN IN FRANCE

Needs a Course of Instruction in Elements of Film Making—Have Better Actors

By JOHN O'BRIEN
(U. P. Staff Correspondent)

Paris, Mar. 7.—Americans who remember the infant days of the moving picture industry at home, when every barkeeper and streetcar conductor had a scenario all worked out and everybody with a couple of thousand dollars to risk was willing to take a chance on the embryo author's brain child, are watching with interest a similar period of development in the film industry in France.

Although the "movies" were born here, they are still in swaddling clothes. After more than twenty years, the cinema has not reached the stage of development represented by the movies of the United States of twelve or fifteen years ago. Here, in the very home of the "silent drama", seventy-five per cent. the pictures shown on the screen are American products.

It is only in very recent years that France took the motion pictures seriously. Just before the war there was an attempt to make better films, to put into the film business something of the artistic genius which has made the French stage supreme in the dramatic world. The war stopped this effort and gave the American producers a chance to capture the market, so that today "Charlot" and Mary and Doug and "ze Faar West" and "ze cooby" are the stock in trade of the film fan's conversation.

"It isn't that France lacks material for good pictures", said an American motion picture producer to the United Press. "But the French have been left miles behind in the art of making good pictures. They have learned nothing of lighting effects. They have better actors than we have in America. Their scenarios are in general as good or better. They have ideal conditions for outdoor effects, but when it is a question of a studio set, they are lost. They need a course of instruction in the elements of film making and until they get it the French film industry cannot be a serious rival to the American producers."

Before the war the film industry in France was practically in the hands of two companies—Pathe and Gaumont. These were the kings of the business. There were perhaps twelve hundred movie theaters in the country. At present there are about 1,600 theatres and several new companies have been organized. Eclipse Select, Aubert, Harry and the Agence Generale are disputing the ground with Pathe and Gaumont and an American company (the Fox Film Company) has invaded France.

All told they produce about thirty to thirty-five pictures a year—probably 200,000 feet of film. This represents about ten per cent of the total shown in France in the course of a year. The remaining 15 per cent—seventy-five per cent being American—is split up among Italian, Swedish and English pictures. The mere fact that such an immense proportion of American pictures is purchased in spite of the unfavorable exchange rate shows their popularity.

With a total invested capital of half a billion francs, the leaders in the moving picture industry here have not yet been able to offer financial inducements to popular actresses and actors sufficient to make them abandon the legitimate stage. There are no movie stars in France. There is not a single name which

stands out like any one of the scores of favorites known to every American. Pick up a newspaper and look over the cinema advertisements. There you will see all the familiar names blazoned forth on Broadway, once in a while an English star, but never a French name. Pictures made in the French studios are flung together in hit-or-miss style. The chief performers snatch a half hour now and then between rehearsals or performances at the theatre which employs them. There are scarcely any regularly organized moving picture actors.

French pictures find a ready sale in South America and, in fact, in all the Latin countries. The Balkans and Egypt buy a large part of the output of the studios, chiefly because the exchange rate of those countries is favorable to business with France, but also because the "stories" are better suited to the people of those countries than the American picture subjects. American movie experts admit that if the native producers adopt American methods to French artistic ability, their product will be able to meet American pictures on terms of equality.

PURDUE MAN TO ENTER
